

Optum Networks

- Optum maintains a diverse network encompassing a comprehensive array of clinical specialties and levels of care

Primary Networks

- **Commercial** - the largest membership; must meet standard credentialing criteria
- **Medicaid*** - located where Optum or a health plan we serve has been chosen as a vendor for their Medicaid program; must meet standard credentialing criteria or be eligible provider types or special services as determined by that state
- **Medicare*** - located in counties/states where Medicare has given approval for us to provide a *Medicare Advantage* product; must meet standard credentialing criteria, plus be eligible to participate in the Medicare program

Specialty Networks

Focused on a special type of provider / special type of service that is being provided or a special type of access

- Autism / Applied Behavioral Analyst*
- Express Access*
- Medication Assisted Therapy (MAT)
- Telemental Health (virtual visits)
- Transcranial Magnetic Stimulation (TMS)*
- United States Military Entrance Processing Command (US MEPCOM)*
- Veterans Affairs Community Care Network (VA CCN)*
